

Dowel Extractor Kit

DPE and DP Heads

KEY FEATURES

- / Dowel Pin Extractor Tool
- / Choice of Metric or Inch extractor heads
- / Waterproof and Dustproof case
- / Case certified according to IP67

APPLICATION

The Boneham Dowel Pin Extractor tool is used to extract tapped dowel pins from their location hole. This kit is supplied in a hard, durable and ergonomic case. It's ideal for production environments and tool control. The case uses pick and pluck foam so operators can customise to suit. The case is supplied as pictured.

ORDERING INSTRUCTIONS

The Dowel Pin Extractor Kit has a part number of DPE001 for Metric and DPE002 for Inch. Please see table below for the kit contents.
